Government of Manipur

Jointly organized by:

Department of Environmental Science

&

Internal Quality Assurance Cell (IQAC)

Y.K. College, Wangjing, Manipur

(NAAC Accredited 'B' Grade)

www.ykcollege.ac.in

About the College:

Y.K. College, Wangling has completed fifty years of existence on October 28, 2022, since its inception in 1972. This college, recognized by University Grants Commission (UGC) in 1988 under section 2(f) and 12(b) of UGC Act and affiliated to Manipur University, is now a full-fledged Government Degree College, accredited by NAAC as Grade 'B'. Dr. S. Giri Singh, Principal spearheads the college coordinated by promising and energetic faculty members. The college can now provide every student an opportunity of boundless growth through an integrated structure of curricular and extra-curricular activities. The college offers under-graduate Courses in both Arts and Science Streams, some B. Voc. programme, certificate course in Automotive etc. And from the academic session 2022-23, all the available courses will be running under the New Education Policy-2020. Faculty members have excellent academic credentials and are highly regarded. Over the years, the faculty of the college has put in remarkable efforts executed as a sign of dedication to their duties as well as to fulfil the dream of the founder members.

About the FDP:

With the operation of NEP 2020, at Manipur University the introduction of the Value Addition Course (VAC) has helped students in learning and developing knowledge with new ideas and creative thinking. This upgradation of new courses has made a necessary step for teachers to upgrade their knowledge to meet the goal of this new education policy. The present FDP has taken up concentrating more on environmental science teachers and also those having interest in this field to enhance their knowledge on environmental ethics. To enable them to extend awareness to the students about the responsibilities in protecting quality of life and environment, and to boost the moral consciousness about the environment.

Program Outcome:

The program will increase the level of understanding and upgradation of knowledge to the teachers regarding the moral relationship between human beings and the environment.

Teachers would be able to demonstrate an understanding of how scientific principles and ethical systems can be conjoined to foster environmental awareness and develop practical solutions to various environmental issues.
